The United Nations Resolution (A/53/243) affirmed the years 2001-2010 and increased the time frame from 2010-2021

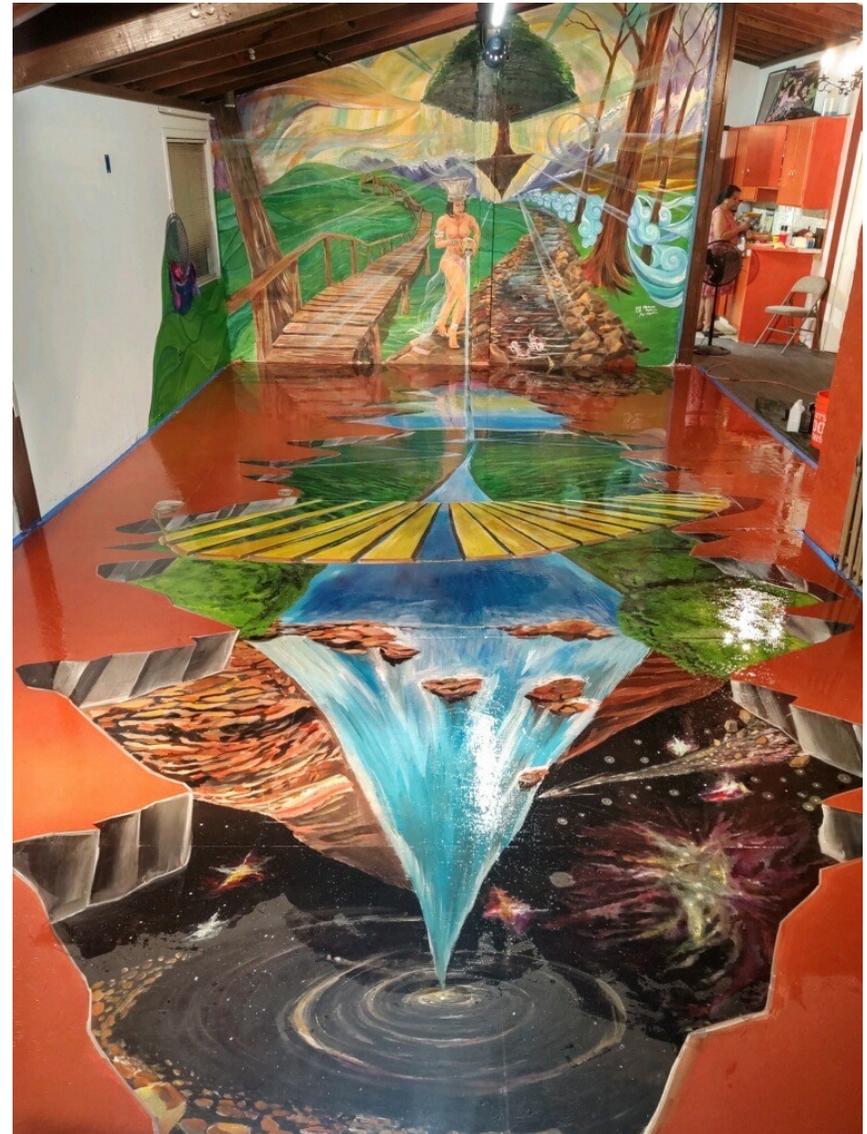

These resolutions were supported by all member states with the hopes of the world populations to work together to establish, maintain and support the Culture of Peace through action and innovation. Since that time, the world has seen a rapid decline in all aspects of environmental impact that have scarred every nation. These growths and spawning of intolerance, bigotry, hatred, decimation of Mother Nature through devastating climate change, and political turmoil, violence, starvation and pandemics have caused us to separate from one another's personal interaction and sharing on many levels.

The time is NOW and with great sincerity that the Art Miles Mural Project and the former Muramid Mural Museum have come together under one roof to support a tangible advocacy for the Culture of Peace. We have worked very hard in our determination to preserve and nurture the passion we feel to be true advocates for PEACE—A LIVING BREATHING, ACTIVE CULTURE OF PEACE by establishing a “home” and a center for people of all ages and cultures to come together to be together because “the best place to be is together!”

SPOKEN WORD

The words we speak and hear can make or break or break our days and nights. But there is nothing like sitting together by the fireplace or in a cool shaded room listening to the poets that live among us and those of fame who visit us to share their experiences in thought and deed.

"Phantom Poets" hosted by our own Poet Laureate, Ed, will always entertain and inspire you with his own master works. The public and all poets and those who aspire to share these words are welcome during our Spoken Word Nights and Events and it's a guarantee each person will come away with thoughtful insights and awareness of how being together can bring out the best in us all.

THE BEST OF ALL – WHAT YOU SEE IS WHAT YOU GET!

Every two months Muramid transforms itself with a totally different exhibition featuring different cultures, ethnicities and individual artists. What better way to be together than to share the richness and diversity offers from all countries?

Art, artifacts, photography, sculpture, pottery, textiles, unique collections of crafts by artisans that you may have never seen before will be for sale for you to take home or gift as a treasured gift—memories shared for many years to come.

The word MURAMID originated from the combination of the word "murals" and "pyramid" when plans were made to exhibit thousands of murals in Egypt. It is our hope that one day when there is more Peace in the world, we can still make it happen to honor the memory of co-founder Fouad Tawfiis.
